Date: 2nd March, 2010

AVIONICS 2010 and TAUPE European Project

On Thursday March 25th 2010, the TAUPE Project will host its first dissemination event, during AVIONICS EUROPE 2010 (incorporating Defence Electronics) at Passenger Terminal, Amsterdam, in the Netherlands. This full conference day will enable project partners to present their work and achievements from the last 18 months. This event represents a unique opportunity to learn more about the possibility of mixing power and communication media inside aircraft.

TAUPE is a collaborative research project co-funded by the European Commission in the framework of the Seventh Framework Programme (FP7). It addresses the aeronautic sector and is composed of 17 partners from 6 European countries. The project lasts 3 years (September 2008 – August 2011), is led by Labinal and has a budget of Euros 5.5M.

TAUPE stands for Transmission in Aircraft on Unique Path wirEs.

The project aims to simplify the electrical architecture of aircraft and to reduce the length and mass of cabling by introducing PLC (PowerLine Communication) or PoD (Power over Data) technologies inside aircraft. Both technologies essentially aim to supply power and data over the same cable.

24th-25th March 2010
Passenger Terminal (City Centre)
Amsterdam, The Netherlands

The TAUPE results will address the ACARE SRA, particularly concerning:

- weight reduction
- easy and cost effective installation and retrofit
- cost effective maintenance

Delegates may register for the TAUPE Project meeting, as well as the conference, workshops or masterclasses at www.avionics-event.com.

Editors Notes

Avionics Conference now in its 8th year, and retains its position as the premiere conference for the avionics industry. Recently purchased by PennWell Corporation, and now incorporating Defence Electronics, the Avionics Conference 2010 will consist of a trade exhibition, two-day conference program, workshops, master classes, exhibitor presentations and technology demonstrations. The next Avionics will be held 24-25 March 2010 in Amsterdam followed by Avionics USA 2010 3-4 June 2010 in San Diego, USA.

PennWell Corporation is a highly diversified, business-to-business media company providing authoritative print and online publications, conferences and exhibitions, research, databases, online exchanges and information products to strategic global markets.
